ENAMELED IRON BATHS AND PLUMBING GOODS

PITTSBURGH, PA.

You know the importance of specifying good material. That is why we want you to become thoroughly familiar with "United States" Enamelled Ware.

You know, too, a modern building may be impaired because the builder insists upon material which you know will not give satisfaction.

To forestall disappointment, the custom is rapidly growing among architects and plumbing contractors to cover more details in their specifications - because owners are not likely to make changes in written specifications recommended by the architect or contractor.

"United States" Enamelled Ware is absolutely dependable. It is "at home" in the finest surroundings. It is made to LOOK well and to WEAR well. It has been the choice of architects and builders of large apartment houses as well as of individual homes.

There is a variety of "United States" products - range of sizes and styles that will meet every requirement.

Write for literature.

Yours very truly,

*United States Sanitary Mfg. Co.*

Kenneth M. de Vos

## Alden Park Manor

*8100 Jefferson Avenue, East*

Detroit

LDEN PARK MANOR is one of Detroit's distinctive apartment buildings. It is located in Indian Village, one of the city's most exclusive sections, and consists of four eight-story buildings of eighty-eight apartments each—three hundred fifty-two in all.

These splendid apartment buildings are modern in every respect, and were planned by Mr. Kenneth M. de Vos of Detroit, who was builder as well as architect. The buildings are owned jointly by Mr. deVos and Mr. C. C. Mitchell of Chicago.

In keeping with the general high quality of its appointments, Alden Park Manor contains a large amount of "United States" Enameled Ware, which was furnished by Detroit Lead Pipe Works, Detroit's well-known jobber, and installed by A. W. Phillips, also of Detroit.

The growing popularity of "United States" Enameled Ware is due to its unusual quality and fine appearance. It is so carefully built that its beauty will be undiminished after years and years of enduring service.

You, too, can install "United States" Enameled Ware with full knowledge that years hence the owner will be as enthusiastic about it as on the day it was furnished.
